Middle Office | Product Control | Risk & P&L | Fixed Income & Structured Products

EXPERIENCE

Deutsche Bank

Dec 2025 – Present

Kannon Risk and Profit & Loss (RPL) Specialist, Associate

London, UK

- Support the Kannon Middle Office team within Fixed Income & Currencies, partnering with Trading, Global Strategic Analytics, Finance, Operations, and Infrastructure to maintain trade capture accuracy, risk integrity, and P&L reporting.
- Monitor intraday trade bookings using IRIS and reconciliation tools, investigating trade booking discrepancies, valuation breaks, cash flow mismatches, and position / risk exceptions.
- Support the end-of-day close by resolving exceptions, performing position, risk, and P&L substantiation, and escalating control issues impacting front-office and finance reporting.
- Provide product coverage across Rates, Credit, and Emerging Markets, including interest rate swaps, credit default swaps, bonds, and futures across OTC, exchange-traded, and cash instruments.
- Contribute to control enhancement and platform migration initiatives across Kannon, IRIS, Summit, Trade Manager, and related risk and operational workflows.

Marex Solutions

2022 – 2024

Structured Products Operations Equity Analyst

London, UK

- Supported structured products operations across trade capture, lifecycle events, settlements, reconciliations, and corporate actions.
- Managed the end-to-end trade lifecycle of structured product trades, including fixings, payoff events, triggers, expiries, and early terminations.
- Performed trade, position, and cash reconciliations, investigated discrepancies, and supported timely issue resolution across internal and external stakeholders.
- Produced and validated trade confirmations and supported settlement workflows, including physical settlement events where required.
